PROJECTS

NSE - NMASS Application Service's (03/2023 - Present)
- NMASS is an Angular-developed project leveraging microservices architecture for the NSE (National Stock Exchange) Client agents. As an Angular developer, my role involves crafting intuitive user interfaces and integrating them seamlessly with the Angular microservices, ensuring efficient data retrieval and processing for optimal user experience and trading processing functionality. (Angular 14)

Magma HDI - General Insurance (08/2022 - 02/2023)
- As an Angular developer for the motor insurance section of MAGMA HDI General Insurance, I streamline quotation, proposal, and claim processes. Leveraging Angular's capabilities, My role focuses on enhancing efficiency and customer satisfaction throughout the insurance lifecycle. (Angular 11)

Devdent Healthcare Enterprises Software (03/2021 - 02/2023)
- Were actively involved in the Frontend design and Enhancement, development phases of this project with Angular 4
- Resolved some complex problems with this application like backend requests slowing down the application speed, Develop technical documentation to define the system components, implementation & planning/strategies,

VOIT Automation File Vine Voice (07/2020 - 01/2021)
- Built Angular 6 components, UI services to consume rest services using Component based architecture provided by Angular 6
- Developed various pages in the applications in front end technologies HTML5, CSS3, JSON, Angular 6. Utilized Angular Cli to develop front-end functionalities, Managed Version Controllers with Git, Jira and Agile Methodology. (Angular 6)
